

# LOOKING FOR A GRAVE IN SEAL CHURCHYARD

## GENERAL NOTES:

### To find a grave in the churchyard:

- find the surname in the list
- note the Grid Reference in the last column
- find it on the map overleaf.

The Grid Reference will give you an approximate location in the churchyard. The grid lines on the map are taken from the What3Words app. Their references are not precise enough to locate graves, but if you have the app, you may find it helpful to use the satellite imagery and count the grid squares to help you search.

**Further details of burials** can be found in the transcript records which are included in this file. There are 6 sets of transcripts referring to different areas of the churchyard. You can find the correct set by looking at the "Transcript Record" reference in the fourth column in the surname list. The second and third numbers in this column refer to the row and plot number of the grave as listed in the records.

1. Leland Duncan records – 18<sup>th</sup>-19<sup>th</sup>C
2. Old North graveyard – Late 19<sup>th</sup> to early 20<sup>th</sup> C
3. North East graveyard – Early to mid 20<sup>th</sup> C
4. North West graveyard – Mid 20<sup>th</sup> to early 21<sup>st</sup> C
5. Cremated remains along the North and West walls of the churchyard.
6. Tower plot – currently in use for burials, between the church tower and the West wall of the church yard

**The oldest graves in the churchyard are in the front of the church.** These do not have grid references, but were mapped in 1921 by Leland Duncan. If the grave you are looking for dates to before the late 19<sup>th</sup> century, this is where it is likely to be.

The sketch map he produced is at the back of this documents along with a list of surnames of those buried in the oldest part of the graveyard. Record set 1 contains more details of these burials.

### PLEASE NOTE:

Not all graves are marked by headstones and older gravestones are often hard to read, so we have not always been able to locate graves with certainty.

In addition, before the mid twentieth century, although burials were recorded in burial registers, they often did not include location information. If you cannot find a grave, this may be the reason. People were content to know that they were buried "in God's Acre" as the churchyard was known, close to the church which so many of them had worshipped in through their lives.

**NORTH WEST GRAVEYARD**

Between trees and field wall, to the left of path.  
Mid 20<sup>th</sup> to early 21<sup>st</sup> C  
Record set 4

**NORTH EAST GRAVEYARD**

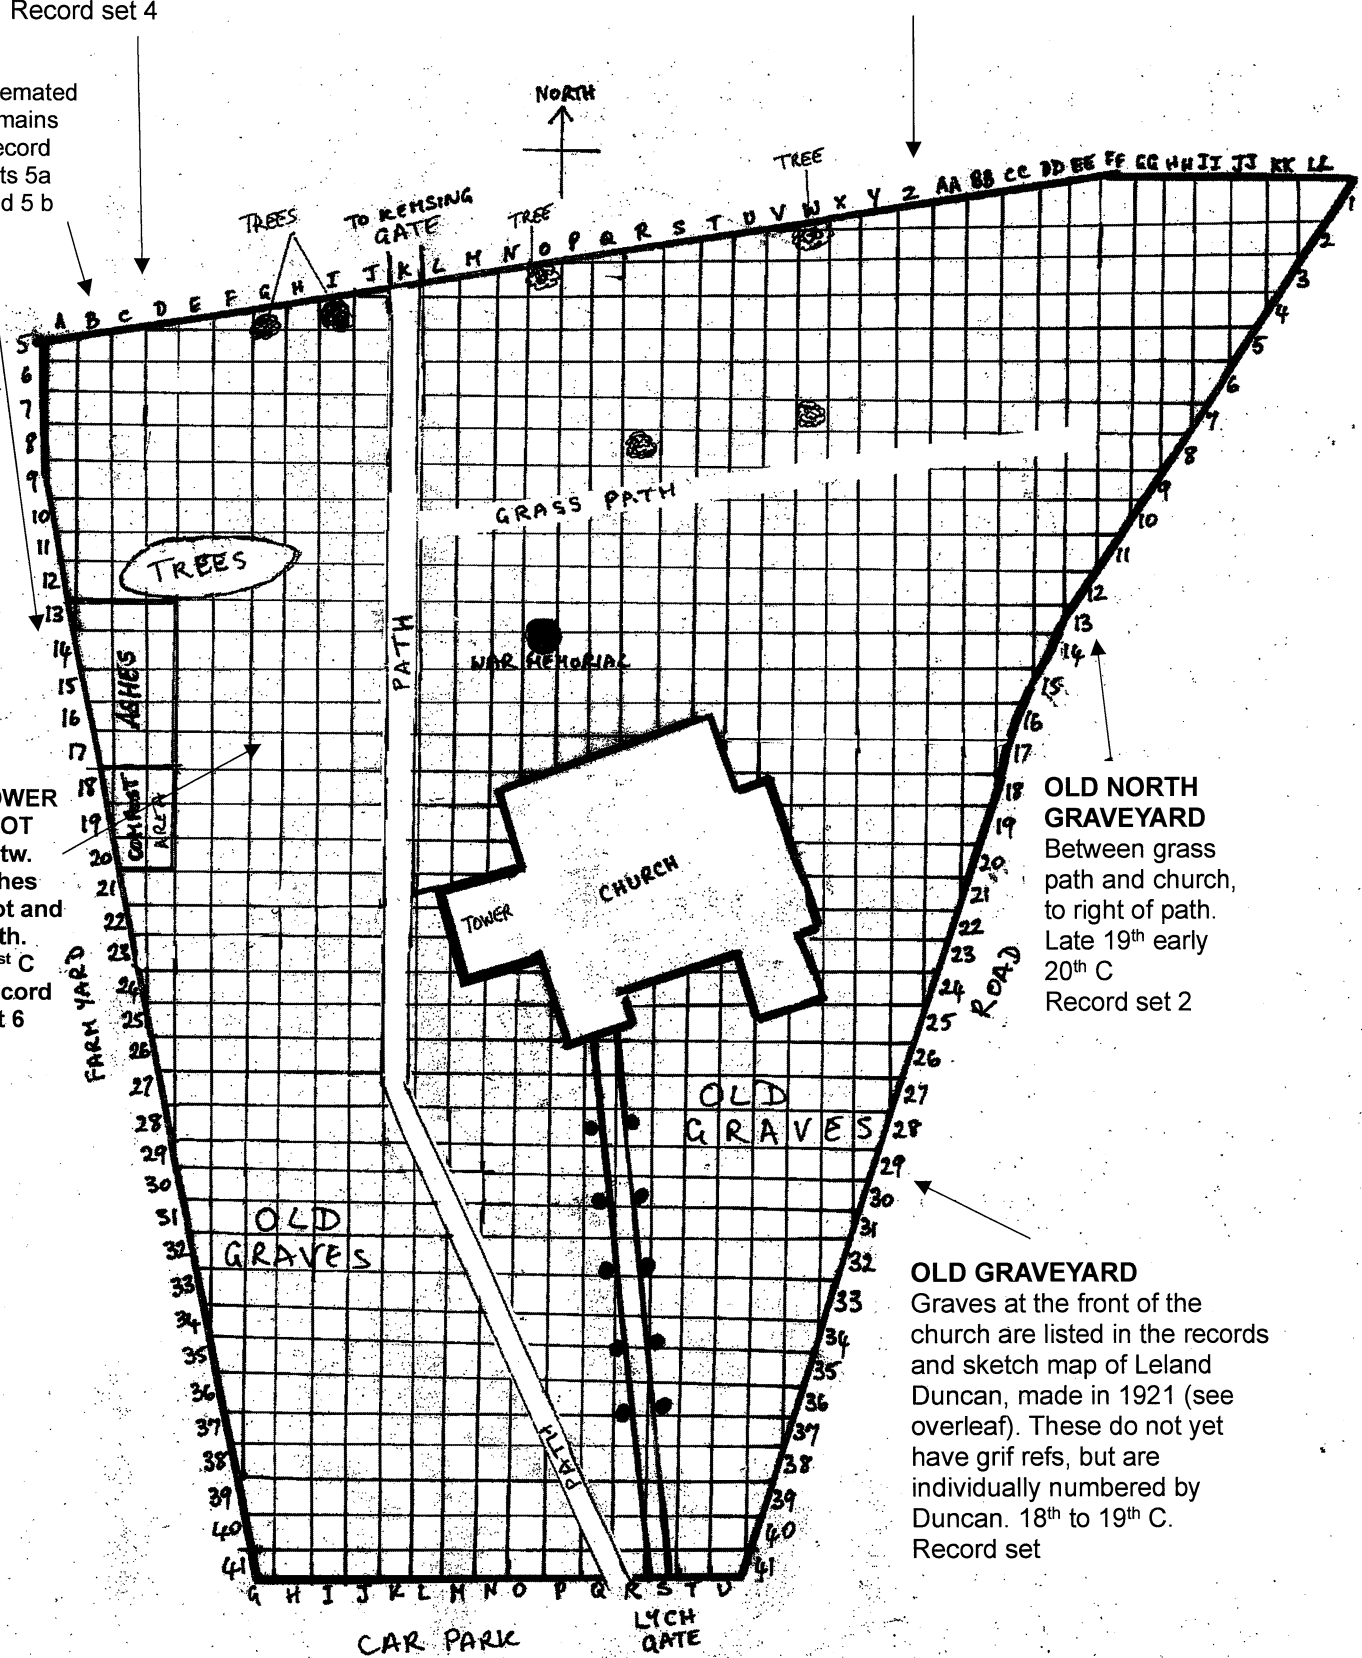

between grass path and field wall, to the right of the path. Early 20<sup>th</sup> C  
Record set 3

Cremated remains  
Record sets 5a and 5b

TOWER PLOT  
Betw. ashes plot and path.

# OLD GRAVES IN FRONT OF SEAL CHURCH

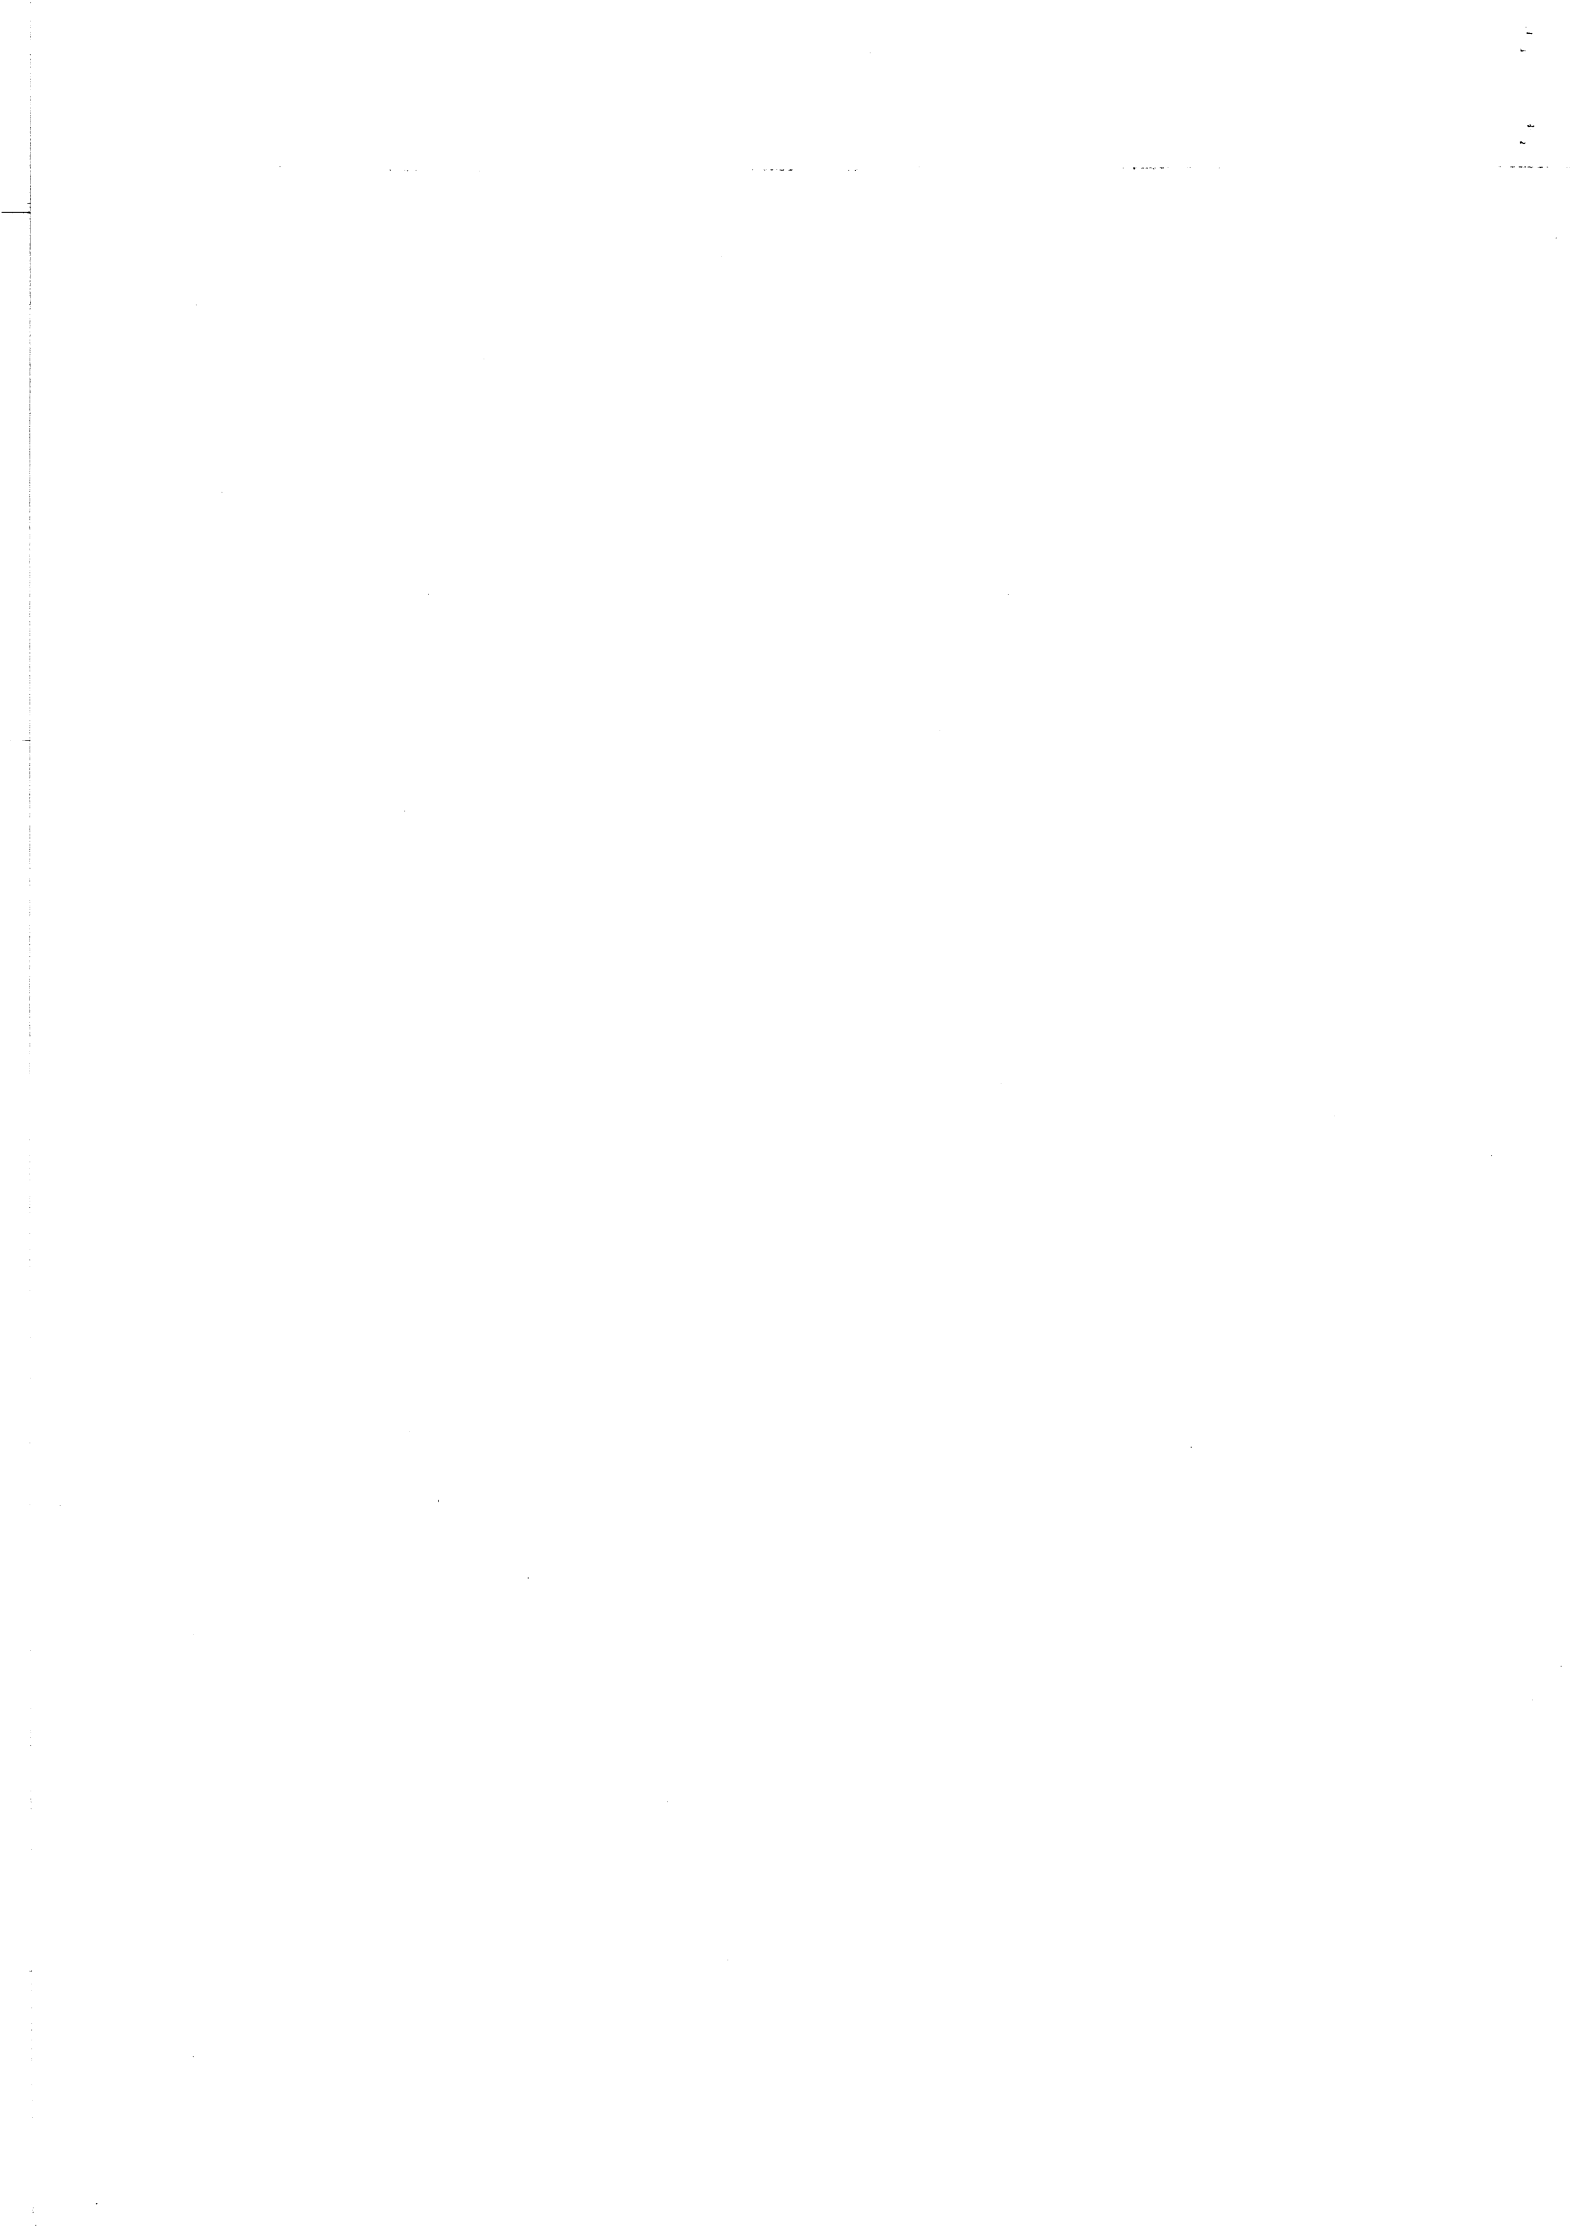

This record includes graves from the 1700s to the late 19<sup>th</sup> Century, and was recorded by Leland Duncan in 1921. A sketch map with each grave's location can be found on the ~~map overleaf~~. Grid references for these graves have not yet been recorded, but the sketch map should provide enough guidance to locate them.
